

PRIORITY ACTIONS 2018-2019:

Following scrutiny and analysis of the results of the DPMT tests of May 2018, class average scores were looked at under the various headings. It was decided that each class would concentrate on specific targets for the coming year based on the results.

The following is a breakdown of the areas which will be prioritised in the coming school year:

Class	Priority Actions for 2018-2019
First Class	<ul style="list-style-type: none">• Addition & Subtraction (With particular attention to finding a missing value e.g. $8+\square=12$)• Solving orally through discussion, Word Problems• Completing Number Sentences• Partitioning Sets
Second Class	<ul style="list-style-type: none">• Problem solving with all operations: \times, $-$, \div, $+$• Measures - Time (Analogue and Digital clocks)• Reasoning – Magic Squares, explaining how children get an answer.• Reasoning with shape and space• Data Handling –Addressing difficulties when a key is used in a pictogram and the mis-reading of bar charts
Third Class	<ul style="list-style-type: none">• Bar Chart (Focus on reading the Bar Chart carefully to find out the amount each block represents.)• Measures:• Problem Solving: Refer to PDST Strategies.
Fourth Class	<ul style="list-style-type: none">• Connecting and integrating• Shape and Space – 2D Shapes• Number – Algebra• Reasoning• Measures – Money and weight
Fifth Class	<ul style="list-style-type: none">• Problem solving: Operation/Division. Measures• Data: Integrating and Connecting• Time: Measures• Shape and Space – Reasoning
Sixth Class	<ul style="list-style-type: none">• Problem Solving (All operations)• Shape and Space• Data – Averages/interpreting graphs• Fractions/Decimals/Percentages• Measures – Time/Weight conversions
